Construction / Workmanship

Pre-Fit Comments

Construction/Workmanship

Stitching over the waistband can be increase the defect rate and break the thread during wearing.
So we suggest to improve safety and durability by stitching under waistband seam.
Pls review and update the sketch if you OK.

Fit Comments

[Kim Bennett 2/21/2019]

No, we want the stitching on the waistband as shown on sketch.
This is a carry-over style that has been placed with 2 other vendors, who can do this without and stitch breakage.
We need the construction to match across all vendor placement.

Please follow sketch and correct this for bulk.

Sample is approved for fit, please incorporate comments noted above into bulk. No further fit samples are needed for fitting.

Also, factory must send us a picture of all of your samples on our approved fit forms. If vendors are submitting a jump size set, pictures must include both size forms (For Old Navy Newborn- these are sizes 3/6 mo and 18/24 mo).

All fit forms must be Gap Inc approved Alvanon forms and must be wearing a disposable diaper under samples for sizes up to and including 18/24 mo. All forms must also have the feet and hands attached.

Pictures of samples on form must be front, side profile, and back view.

You did not send us a picture of the sample on the form, this is not acceptable. Please do this going forward.
